Connect with us through your Admission Portal:

explore.bryant.edu/apply/status

- Set up your Bryant email
- Submit your laptop agreement form
- Complete your housing application
- Access your required health forms

When you become a Bulldog, you join a tradition of excellence dating back to 1863 and a network of 50,000+ alumni across the globe.

WHY COLLEGE OF BUSINESS AT BRYANT

College of Business majors complete courses of study that combine their major with a liberal arts or health and behavioral sciences minor. That way, you gain not only a cross-disciplinary advantage but also the opportunity to pursue your interests. More than 40% of students complete double, triple, or even quadruple concentrations.

Your course of study is infused with partnerships between Bryant and business, helping you earn career credentials along your path to becoming an agile thinker and leader.

With the Vision 2030 strategic plan leading us through this next decade, Bryant's College of Business will continue to build on its nationally ranked academic programs and vibrant campus experience. We are constantly innovating our student life offerings to grow with our students, but our educational philosophy remains steadfast: combining immersive learning experiences, a uniquely integrated curriculum, individual attention, and a global perspective to deliver the absolute best education possible.

Hands-on learning is in our DNA. You may solve logistics problems for real companies, manage an investment portfolio, battle in the College Fed Challenge, or intern overseas.

WHY ARTS AND SCIENCES AT BRYANT

The College of Arts and Sciences fosters the development of ethical, global citizens driven by empathy, curiosity, and collaboration. The college promotes intellectual discovery, creativity, and critical thinking to prepare you to contribute personally and professionally to the development of a more just, equitable, and inclusive world.

The Bryant experience as a whole is unique. You will be immersed in a robust academic curriculum that intersects the complexities of the liberal arts, business, and health and behavioral sciences. By complementing an arts and sciences major with a business minor — there are 200 potential combinations — you not only develop subject expertise but also garner the functional skills to solve and implement lasting change. For majors in the arts and sciences and for every Bryant student, the College of Arts and Sciences teaches and reinforces the skills for professional success that employers demand: effective written and oral communication, critical thinking, ethical reasoning, diversity awareness, and information literacy. These habits of mind also promote the ethics of social responsibility, personal integrity, and civic engagement that are important to educating the whole person for a full life as engaged citizens in a global society.

The College of Arts and Sciences makes you better world ready.

Hands-on learning is in our DNA. You may write the narrative for the annual literary review, battle in a mock trial tournament, or publish original research.

WHY SCHOOL OF HEALTH AND BEHAVIORAL SCIENCES AT BRYANT

The School of Health and Behavioral Sciences (SHBS) offers you a unique interdisciplinary education, integrating studies in health sciences, cognitive and behavioral sciences, data analytics, and business. As a Bryant graduate, you will be exceptionally prepared to tackle issues at the intersection of these disciplines.

Healthcare as an industry is exploding. In fact, data from the Bureau of Labor and Statistics indicates a growth rate of 16 percent for occupations in healthcare until 2030, more than triple the projected average employment growth rate of 5 percent, with projected earnings well above national and New England averages. With that in mind, SHBS programs prepare you for outstanding career opportunities in fields including healthcare, behavioral sciences, healthcare analytics, and public and community health.

Bryant's Vision 2030 strategic plan will help to grow the school throughout the next decade, while continuing to invest in our historic strength in business education and in vibrant campus life. With a new undergraduate program in Exercise and Movement Science, a well-regarded graduate Physician Assistant Studies program, and a new graduate program in Healthcare Informatics launched in 2023, you will be part of a School of Health and Behavioral Sciences that is on the move and evolving to meet both your needs and market demands.

Hands-on learning is in our DNA. Explore how the human body performs, unravel the mysteries of memory, or develop novel vaccines.

WHY BRYANT

At Bryant University, you choose courses of study that immerse you in an environment where business acumen meets the boundless creativity of the arts and the analytical precision of the sciences. That way, you gain not only a cross-disciplinary advantage but also the opportunity to pursue your interests. More than 40% of Bryant students complete double, triple, or even quadruple concentrations.

Your path will prepare you for the challenges of a dynamic global economy where success requires more than technical skills — it demands the ability to think critically, communicate effectively, and approach challenges with imagination.

With the ambitious Vision 2030 strategic plan leading us through the next decade, Bryant will continue to build on its nationally ranked academic programs and vibrant campus experience. We are constantly innovating to grow with you, but our educational philosophy remains steadfast: combining immersive learning experiences, a uniquely integrated curriculum, individual attention, and a global perspective to deliver you the absolute best education possible.

Hands-on learning is in our DNA. You may solve logistics problems for real companies, manage an investment portfolio, battle in a mock trial tournament, or develop novel vaccines.

JOIN US ON CAMPUS

Bryant 360 | Friday, February 23 | Friday, March 29 | 10 a.m. to 3 p.m. *(Registration begins at 9:30 a.m.)*

Design your own day to experience Bryant. Learn about the many academic opportunities, hear about student life, or listen to staff from the Amica Center for Career Education discuss their services. The day also includes a campus tour and lunch. Log into your Admission Portal to register.

Bryant 101 | Saturday, March 23 | 10 a.m. to 12:30 p.m. *(Registration begins at 9:30 a.m.)*

Bryant 101 | Monday, April 15 | 1 to 3:30 p.m. *(Registration begins at 12:30 p.m.)*

Discover firsthand what makes Bryant's tight-knit learning community and transformative educational experience so unique. At Bryant 101 info sessions, you'll hear straight from current Bryant students on how they thrive here, from academic programs and experiential learning to campus life outside the classroom. The event also includes a campus tour.

Admitted Student Days | Most Mondays, Wednesdays, and Fridays | March 22 to April 12

Participate in a group information session, take a tour, and be our guest for lunch in the dining hall. This is a great alternative if you are unable to make the Admitted Student Open House on April 6. The Office of Financial Aid will be open. Log into your Admission Portal to register.

Schedule

9:30 a.m. Registration

10 a.m. Information Session for Admitted Students

11 a.m. Tour

12 p.m. Lunch

Admitted Student Open House | Saturday, April 6 | 10 a.m. to 2:30 p.m. *(Registration begins at 9 a.m.)*

Attend forums on academic majors, learn about the Amica Center for Career Education, hear from current students, visit the Financial Markets Center and Communications Complex, take a student-guided tour, attend a student organizations fair, and enjoy lunch in our dining hall. Log into your Admission Portal to register.

Bulldog Experience | February, March, and April

Want to know what it's really like to be a student at Bryant University? We'll personalize a schedule for you. You'll be paired with one of our Student Ambassadors, sit in on a class, enjoy lunch in one of our dining facilities, and have the opportunity to tour campus. To register, contact the Office of Admission at least two weeks prior to your visit.
